

St Michael's C.E Primary School

MFL Curriculum 2024-2025

MFL is learning a new language and about the wider world, including cultural differences, which allows children to express themselves in new ways.

Intent - At St Michael's, MFL encourages children to develop their knowledge, skills and understanding of the world outside our school, whilst understanding the value of this. Children should progressively acquire, use and apply the four key language learning skills which are: speaking, reading, writing and grammar. In order to support children with all four key skills, our main focus will be on speaking and listening as we believe that this will provide children with the vital skills and confidence to progress in all areas within MFL.

A linguist has a good understanding of culture and diversity as well as good perseverance and resilience.

Spirituality Across the Curriculum

Our definition of spirituality at St Michael's CE Primary School:

To talk about spirituality is to talk about something which is beyond words.

Spirituality is linked to big questions about the meaning and purpose of life; it includes ideas relating to oneself, others, the natural world and the transcendent.

We refer to this as:

The stillness of the mind

The settling of the soul

The uplifting of the spirit

Being at one in the world and finding meaning and purpose in life.

For some, but not all, this will be experienced, expressed or explained through faith or belief.

When discussing this with our pupils, we refer to spirituality as:

The way WOWS, OWS and NOWS shape me into the person that I am and will become.

Spiritual development contains many facets and it is concerned with a number of areas of an individual's life. Therefore, when developing spirituality in pupils and adults, we, in line with our distinctively Christian vision and our school's definition for spirituality, look at four key areas: self, others, transcendence (beyond), and nature.

Spirituality Opportunities

Self

Opportunities

- Children have the opportunity to label their feelings in French.
- Children explore family member vocabulary in French.
- Children can keep a daily journal where they write about their thoughts, feelings, and experiences in French.
- Encourage students to write lists of things they are grateful for in the French. This can promote a positive mindset and self-awareness.
- Introduce simple guided meditation sessions in the target language. Teach vocabulary related to mindfulness, such as "respirer profondément" (breathe deeply) and "se détendre" (relax). Children can then engage in activities like mindful coloring or deep breathing exercises, using instructions in the target language.
- Children can create art projects that express their understanding of spiritual concepts. For example, students can draw their "happy place" and describe it in the target language.

Potential Question Prompts

- How does it feel to be proud of your whole self?
- How are you feeling today?
- How did that make you feel?
- What is your happy place? Can you describe it? How does it make you feel?
- Write about a time when you felt very happy. What made that moment special?
- Close your eyes. Take a deep breath in... and exhale slowly. Imagine you are in a peaceful place, maybe a beach or a forest. How do you feel?

Others

Opportunities

- Children can learn about and celebrate cultural and religious festivals from the countries where the language is spoken. For example, discussing and celebrating Noël in French classes.
- Exhibiting behaviours such as kindness, empathy, and cooperation in classroom activities and respecting peers.
- Children to create a safe and respectful environment so everyone can flourish in French.
- Using role play to understand feelings and thoughts

Potential Question Prompts

- How is Christmas celebrated in France?
- Are there any French traditions that are similar/different?
- How can we be respectful when we are practising French language in pairs?
- How can we encourage others to have a go and be brave?

Transcendence

Opportunities

- Exploring the culture of other countries including religious festivals (linking to the culture strand of MFL)
- Conduct guided visualisation exercises in the target language where children imagine themselves in a transcendent or serene place. Use descriptive language to enhance the experience.
- Read a myth or legend from the target culture that involves transcendence. For example, the legend of Orpheus and Eurydice in French.

Potential Question Prompts

- How is this festival celebrated differently in ___ and ___?
- What does this myth teach us about the culture and beliefs of the time?
- Have you ever experienced a moment of transcendence? Describe it.

Nature

Opportunities

- Children have the opportunity to explore the circle of life to make sense of the world. They will learn new animal vocabulary and sort the nouns according to gender.
- Learning to say what they love about life and nature
- Take children on a nature walk and describe the surroundings in the target language. Discuss the beauty and vastness of nature as a form of transcendence.

Potential Question Prompts

- Tell me in French, what do you love about your world?
- In French, describe the beauty of nature around you. What do the trees, leaves, flowers look like?
- How do you feel when observing nature?

Understanding the World

- To guide children to make sense of their community.
- To foster their understanding of our culturally, socially, technologically and ecologically diverse world.
- To enrich and widen children's vocabulary.

National Curriculum - Aims and Purpose

Learning a foreign language is a liberation from insularity and provides an opening to other cultures. A high-quality languages education should foster pupils' curiosity and deepen their understanding of the world. The teaching should enable pupils to express their ideas and thoughts in another language and to understand and respond to its speakers, both in speech and in writing. It should also provide opportunities for them to communicate for practical purposes, learn new ways of thinking and read great literature in the original language. Language teaching should provide the foundation for learning further languages, equipping pupils to study and work in other countries.

The national curriculum for languages aims to ensure that all pupils:

- understand and respond to spoken and written language from a variety of authentic sources
- speak with increasing confidence, fluency and spontaneity, finding ways of communicating what they want to say, including through discussion and asking questions, and continually improving the accuracy of their pronunciation and intonation
- can write at varying length for different purposes and audiences, using the variety of grammatical structures that they have learnt
- discover and develop an appreciation of a range of writing in the language studied

National Curriculum - Key stage 2

Pupils should be taught to:

- listen attentively to spoken language and show understanding by joining in and responding
- explore the patterns and sounds of language through songs and rhymes and link the spelling, sound and meaning of words
- engage in conversations; ask and answer questions; express opinions and respond to those of others; seek clarification and help*
- speak in sentences, using familiar vocabulary, phrases and basic language structures
- develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phrases*
- present ideas and information orally to a range of audiences*
- read carefully and show understanding of words, phrases and simple writing
- appreciate stories, songs, poems and rhymes in the language
- broaden their vocabulary and develop their ability to understand new words that are introduced into familiar written material, including through using a dictionary
- write phrases from memory, and adapt these to create new sentences, to express ideas clearly
- describe people, places, things and actions orally* and in writing
- understand basic grammar appropriate to the language being studied, including (where relevant): feminine, masculine and neuter forms and the conjugation of high-frequency verbs; key features and patterns of the language; how to apply these, for instance, to build sentences; and how these differ from or are similar to English
